

SAM Learning GO!

Instructions for logging on

At Downend School we understand the importance of working outside of school hours, whether on a formal homework assignment, or for your own learning and revision.

To help you we have partnered up with [SAM Learning.com](http://samlearning.com) [samlearning.com]

Teaching staff will be using SAM Learning to set homework during the school year. However, this resource is open for you to work on as and when you want to from home. This could be for formal preparation for an exam/test or for checking your understanding of a topic taught in a lesson

The people at Sam Learning promise that if you use it for 10 hours or more, in any subject, that YOU WILL GET BETTER RESULTS.
